## Product Description

Sundström's cables for communication between different units. The systems are based on establishing communication with different units via hearing protection.

The communication solutions can be mounted on the following Sundström products:

- SR 100 and SR 900 half mask
- SR 200 full mask
- SR 570 visor
- SR 580 and SR 575 helmet

**T09-0001** is a microphone cable with electret microphone. The microphone cable is easily mounted in the respirator and then connected to the hearing protector, either directly or via connecting cables.

**T09-0002** is an adapter cable. Used for hearing protectors where speaker or microphone input is a 2-pole twin-pin male connector.

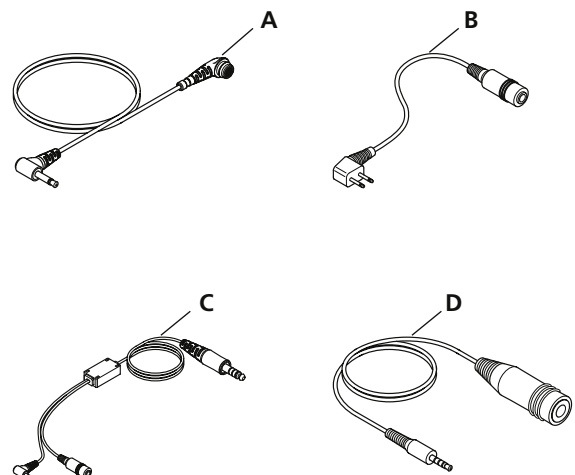

**T09-0003** is an Y-cable. The Y-cable is connected when the hearing protector has speaker input and is then connected to the microphone cable and other connection cables. Enables you to connect a mobile phone or via PTT to com-radio.

**T09-0004** is a mobile phone cable. Used for connection to mobile phone from the Y-cable.
